## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-30 and 56-61 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the liquid crystal display device of claim 1, in particular the limitations that there is a first auxiliary electrode under the data line, a plurality of horizontal second auxiliary electrodes, and protrusions on the second substrate between the second auxiliary electrodes. Claim 1 is therefore allowed, as are dependent claims 2-15.

The prior art does disclose the method of manufacturing a liquid crystal display device of claim 16, in particular the limitations of forming a first auxiliary electrode and a plurality of second auxiliary electrodes, the first auxiliary electrode having first and second portions spaced apart from each other under the data line, the second auxiliary electrode connecting the second portion of the first auxiliary electrode to a first portion of another first auxiliary electrode under an adjacent data line, and protrusions on the second substrate between the second auxiliary electrodes. Claim 16 is therefore allowed, as are dependent claims 17-30.

The prior art does not disclose the liquid crystal display device of claim 56, in particular the limitations that there is an auxiliary electrode having a vertical electrode under the data line and a plurality of horizontal electrodes connecting to the vertical

electrode, and diagonal protrusions on the second substrate between the slits in the pixel electrode. Claim 56 is therefore allowed, as are dependent claims 57-61.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
